SINCE 2020

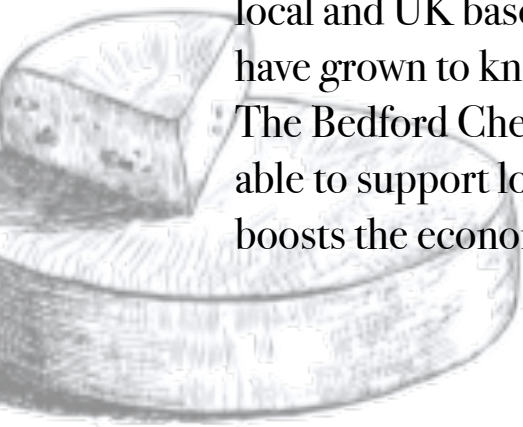

# About The Bedford Cheese Company

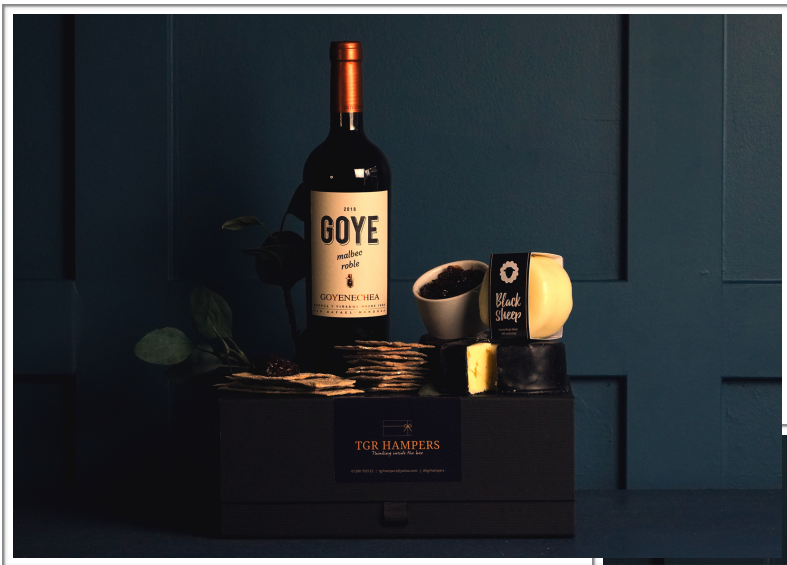

The Bedford Cheese Company was formed in 2020 after the popular demand for cheese deliveries from our sister company – Decant Wine and Cheese Deli.

The Bedford Cheese Company is a family run fine foods company specialising in cheese from both local and UK based dairy farms. We also supply some of our most popular French cheeses that we have grown to know and love through our already established cheese deli in central Bedford.

The Bedford Cheese company mature, sell and export fine cheese made by local producers. Being able to support local dairy farms is extremely important to us, we believe that shopping local really boosts the economy and supporting small businesses like ourselves is invaluable.

## About our Christmas Cake Gin

The recipe is inspired by our mum's traditional homemade Christmas cake: sweet, rich & syrupy.

Uniquely distilled with real dark chocolate, ginger, juniper, and festive spices, then expertly blended with cherry juice, our hand-picked sloe gin macerate & pure treacle

Signature Serve: Best enjoyed neat over ice or topped with Coca Cola.

# WARNER'S™

## Our Story

We started in 2012 on our beautiful family farm, with no idea what we were getting ourselves into. We began with the things that matter most and a dream to save the world from mediocre gin. We ended up stripping the industry back to its roots: we became gin farmers.

Made in small batches, and only using 100% British Honey from our own hives this gin is smooth, and easy to drink with a distinct honey sweetness.
